

PROCEEDINGS OF SPIE

Degraded Visual Environments: Enhanced, Synthetic, and External Vision Solutions 2016

**Jack Sanders-Reed
Jarvis J. Arthur III**
Editors

**19–20 April 2016
Baltimore, Maryland, United States**

Sponsored and Published by
SPIE

Volume 9839

Proceedings of SPIE 0277-786X, V. 9839

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Degraded Visual Environments: Enhanced, Synthetic, and External Vision Solutions 2016
edited by Jack Sanders-Reed, Jarvis J. Arthur III, Proc. of SPIE Vol. 9839, 983901
© 2016 SPIE · CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2245784

Proc. of SPIE Vol. 9839 983901-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print. Papers are published as they are submitted and meet publication criteria. A unique citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

SESSION 1	SYSTEM PERFORMANCE EVALUATION
9839 02	Flight test results of helicopter approaches with trajectory guidance based on in-flight acquired LIDAR data [9839-2]
9839 04	Toward autonomous rotorcraft flight in degraded visual environments: experiments and lessons learned [9839-4]
9839 05	Capability comparison of pilot assistance systems based solely on terrain databases versus sensor DB fused data systems [9839-5]
9839 06	Performance evaluation of active sub-Terahertz systems in Degraded Visual Environments (DVE) [9839-6]
SESSION 2	SYMBOLY AND SYNTHETIC VISION
9839 07	The glass dome: low-occlusion obstacle symbols for conformal displays [9839-7]
9839 08	Amplifying the helicopter drift in a conformal HMD [9839-9]
9839 09	A concept for a virtual flight deck shown on an HMD [9839-10]
9839 0A	Helmet mounted display supporting helicopter missions during en route flight and landing [9839-11]
SESSION 3	ADVANCED VISION SYSTEMS FOR COMMERCIAL FLIGHT
9839 0B	Present and future of vision systems technologies in commercial flight operations (Invited Paper) [9839-12]
SESSION 4	HUMAN PERFORMANCE EVALUATION
9839 0C	Assessing impact of dual sensor enhanced flight vision systems on departure performance [9839-13]
9839 0D	Measuring the denoising performance of the human visual system for optimum display quality [9839-14]

- 9839 OE **Perceptual issues for color helmet-mounted displays: luminance and color contrast requirements** [9839-15]

SESSION 5 IMAGE PROCESSING AND DISPLAY

- 9839 OF **Wavelet based image visibility enhancement of IR images** [9839-16]
- 9839 OG **A new optical system for low-profile HUD by using a prism waveguide** [9839-17]
- 9839 OH **Global vision systems regulatory and standard setting activities** [9839-18]

SESSION 6 ADVANCED DVE SENSING

- 9839 OI **Characterization of the OPAL LiDAR under controlled obscurant conditions** [9839-19]
- 9839 OJ **Three-dimensional landing zone ladar** [9839-20]
- 9839 OL **Mapping of ice, snow and water using aircraft-mounted LiDAR** [9839-22]
- 9839 ON **Display of real-time 3D sensor data in a DVE system** [9839-24]

SESSION 7 DISPLAY ADVANCES, APPLICATIONS, AND FUTURE DESIGN

- 9839 OP **Cooling of organic light-emitting diode display panels with heat pipes** [9839-26]

SESSION 9 HEAD-UP AND BODY-WORN DISPLAYS

- 9839 OV **Combatant eye protection: an introduction to the blue light hazard** [9839-31]
- 9839 OW **Head-up, eyes-out in day and at night: Striker HMD, evolution or revolution?** [9839-32]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

David Logan, BAE Systems (United States)

Symposium Co-chair

Donald A. Reago Jr., U.S. Army Night Vision & Electronic Sensors Directorate (United States)

Conference Chairs

Jack Sanders-Reed, The Boeing Company (United States)

Jarvis J. Arthur III, NASA Langley Research Center (United States)

Conference Program Committee

Daniel D. Desjardins, Air Force Research Laboratory (United States)

Thomas R. Muensterer, Cassidian (Germany)

Niklas Peinecke, Deutsches Zentrum für Luft- und Raumfahrt e.V. (Germany)

Carlo L. Tiana, Rockwell Collins, Inc. (United States)

Session Chairs

- 1 System Performance Evaluation
John N. Sanders-Reed, The Boeing Company (United States)
- 2 Symbology and Synthetic Vision
Thomas R. Muensterer, Airbus Defence and Space (Germany)
- 3 Advanced Vision Systems for Commercial Flight
Jarvis J. Arthur III, NASA Langley Research Center (United States)
- 4 Human Performance Evaluation
Jarvis J. Arthur III, NASA Langley Research Center (United States)
- 5 Image Processing and Display
Carlo L. Tiana, Rockwell Collins, Inc. (United States)
- 6 Advanced DVE Sensing
Niklas Peinecke, Deutsches Zentrum für Luft- und Raumfahrt e.V. (Germany)

- 7 Display Advances, Applications, and Future Design
Jim Metzger, Thales Visionix, Inc. (United States)
- 8 Color Difference and Color Detail
Kalluri R. Sarma, Honeywell Technology (United States)
- 9 Head-up and Body-worn Displays
Gary W. Jones, NanoQuantum Sciences, Inc. (United States)
