

PROCEEDINGS OF SPIE

Second International Seminar on Photonics, Optics, and Its Applications (ISPhOA 2016)

**Agus Muhamad Hatta
Aulia Nasution**
Editors

**24–25 August 2016
Legian – Kuta, Bali, Indonesia**

Organized by
Department of Engineering Physics – FTI
Institut Teknologi Sepuluh Nopember (Indonesia)

Sponsored by
Ministry of Research, Technology and Higher Education (Indonesia)
International Commission for Optics
The Optical Society (United States)
The Abdus Salam International Centre for Theoretical Physics (Italy)
European Optical Society
Optics and Photonics Society of Singapore (Singapore)
PT Telekomunikasi Selular (Indonesia)
Zugo Photonics Pte Ltd. (Singapore)
PT Horiba Indonesia (Indonesia)

Volume 10150

Proceedings of SPIE 0277-786X, V. 10150

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Second International Seminar on Photonics, Optics, and Its Applications (ISPhOA 2016)
edited by Agus Muhamad Hatta, Aulia Nasution, Proc. of SPIE Vol. 10150, 1015001
© 2016 SPIE · CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2263579

Proc. of SPIE Vol. 10150 1015001-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Publication of record for individual papers is online in the SPIE Digital Library.

**SPIE. DIGITAL
LIBRARY**

SPIDigitalLibrary.org

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

ix	<i>Conference Committee</i>
xi	<i>Introduction</i>

SECOND INTERNATIONAL SEMINAR ON PHOTONICS, OPTICS, AND ITS APPLICATIONS (ISPHOA 2016)

10150 02	Thermo-optic effects on three waveguide directional couplers [10150-8]
10150 04	Particle tracking by using single coefficient of Wigner-Ville distribution [10150-13]
10150 05	Optimization design of periscope type 3X zoom lens design for a five megapixel cellphone camera [10150-15]
10150 06	Comparative study of boundary conditions with helix [10150-17]
10150 07	Intensity based sensor based on single mode optical fiber patchcords [10150-18]
10150 08	Design and simulation of GRIN objective lenses for an imaging fiber based speckle metrology system [10150-22]
10150 09	Double biprism arrays design using for stereo-photography of mobile phone camera [10150-25]
10150 0B	Analysis of excimer laser radiant exposure effect toward corneal ablation volume at LASIK procedure [10150-30]
10150 0C	Pre-cataract surgery test using speckle pattern [10150-36]
10150 0D	Modeling of Si/Ge based two-dimensional photonic crystal nanocavity [10150-38]
10150 0F	Effect of the focal plane position on CO₂ laser beam cutting of injection molded polycarbonate sheets [10150-42]
10150 0H	Optimization of optical filter using triple coupler ring resonators structure based on polyimide substrate [10150-45]
10150 0L	Investigation of load effect on macro-bend losses for an SMS fiber structure with a small bend radius [10150-50]
10150 0M	Laser-Induced Breakdown Spectroscopy (LIBS) for spectral characterization of regular coffee beans and luwak coffee bean [10150-51]

10150 ON	Thermal signature analysis of human face during jogging activity using infrared thermography technique [10150-59]
10150 OO	Alcohol sensor based on single-mode-multimode-single-mode fiber structure [10150-61]
10150 OP	Crude oil specific gravity sensor design using polymer optical fiber with structural imperfection [10150-63]
10150 OQ	Design of SMS (Single mode-Multi mode coreless-Single mode) optical fiber as corrosion sensor [10150-64]
10150 OR	Relative humidity sensor based on SMS fiber structure using multimode coreless fiber [10150-67]
10150 OS	Experimental study on strain sensing by small-diameter FBG [10150-10]
10150 OT	Improved optical side coupling efficiency by spiral patterned zinc oxide nanorod coatings on large core plastic optical fiber [10150-11]
10150 OU	Black phosphorus as a saturable absorber for generating mode-locked fiber laser in normal dispersion regime [10150-16]
10150 OV	Low-cost chlorophyll meter (LCCM): portable measuring device for leaf chlorophyll [10150-19]
10150 OZ	Liquid salinity sensor based on D-shaped single mode fibers coated with In-Ga-Zn-O thin film [10150-28]
10150 10	Simulations of unpolarized light scattering by micro-bubble [10150-29]
10150 11	Integrated ZnO nanoparticles on paper-based microfluidic: toward efficient analytical device for glucose detection based on impedance and FTIR measurement [10150-31]
10150 13	Electrical properties of ZnO-based photodetector prepared by room temperature DC unbalanced magnetron sputtering [10150-34]
10150 15	An SMS structure based temperature sensor using a chalcogenide multimode fibre [10150-37]
10150 16	Raman tweezers spectroscopy study of free radical induced oxidative stress leading to eryptosis [10150-47]
10150 17	The 3D scanner prototype utilize object profile imaging using line laser and octave software [10150-53]
10150 18	Iris biometric system design using multispectral imaging [10150-55]
10150 19	Recognition of spectral identifier from green coffee beans of arabica and robusta varieties using laser-induced breakdown spectroscopy [10150-56]

- 10150 1A **Spectral identifiers from roasting process of Arabica and Robusta green beans using Laser-Induced Breakdown Spectroscopy (LIBS)** [10150-57]
- 10150 1B **Fabrication of SnO₂ nanoparticles straight waveguide with isopropanol solvent** [10150-58]
- 10150 1C **The effect of packaging material on optical fiber temperature sensor with singlemode multimode singlemode (SMS) structure** [10150-60]
- 10150 1D **Multimode-singlemode-multimode fiber sensor for alcohol sensing application** [10150-62]
- 10150 1E **Packaging aluminum impacting on optical fiber with Singlemode-Multimode-Singlemode (SMS) fiber structure** [10150-66]
- 10150 1F **Alcohol sensor based on u-bent hetero-structured fiber optic** [10150-69]
- 10150 1G **Comparison microbial killing efficacy between sonodynamic therapy and photodynamic therapy** [10150-71]
- 10150 1H **Fabrication slab waveguide based polymethyl methacrylate (PMMA) with spin coating method** [10150-72]
- 10150 1I **Self-mixing interferometry: a novel yardstick for mechanical metrology (Invited Paper)** [10150-75]
- 10150 1J **Static detection of flat head railways depletion using analysis of laser area and position on rail type R-54** [10150-40]
- 10150 1K **Design of biometrics identification system on palm vein using infrared light** [10150-73]
- 10150 1M **Analysis of spectral identifier of fatty acid functional group of packaging frying oil and bulk frying oil with the effect of repeated heating using FTIR (*Fourier Transform InfraRed*) spectroscopy** [10150-65]
- 10150 1N **Quantum teleportation without classical channel** [10150-79]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Introduction

The Second International Seminar on Photonics, Optics, and Its Applications (ISPhOA 2016) was held in Legian – Kuta, Bali. I am delighted that after the first ISPhOA in October 2014, the Department of Engineering Physics was able to hold and organize this second meeting and to attract renowned speakers and participants from many countries. Many fascinating presentations were given in the field of photonics and optics. We warmly thank you for taking this opportunity to join us and to share important new findings.

This event provides an opportunity to bring together students, scientists, and engineers involved in research and development of technologies related to photonics, optics, and its applications. The information presented includes contributions from colleagues of researchers and academicians and comes from diverse sub-topics in the optics and photonics fields.

I would like to thank the continuous support from Institut Teknologi Sepuluh Nopember (ITS) and the Faculty of Industrial Technology ITS. This meeting would not have been possible without generous funds from the Ministry of Research and Higher Education of Republic Indonesia and ITS.

I would also like to thank our sponsors who generously support this conference: PT. Telkomsel, Zugo Photonics, and PT. Horiba Indonesia. Additionally, I would like to take this opportunity to thank our co-sponsors: the International Commission of Optics (ICO), the Abdus Salam International Centre for Theoretical Physics (ICTP), the Optical Society (OSA), European Optical Society (EOS), and the Optics and Photonics Society of Singapore (OPSS). We are really grateful that this conference is also supported by the Indonesian Optical Society, OSA Indonesia Section, OSA – ITS Student Chapter and SPIE – ITS Student Chapter.

A special thank you to all members of the Advisory Committee, Steering Committee, Scientific Committee, Organizing Committee and to our distinguished international board of reviewers for all their support and advice. We would like also to extend our gratitude to our colleagues from the Faculty of Science, University of Udayana for their support.

**Agus Muhamad Hatta
Aulia M.T. Nasution**
