Volume 10211

Proceedings of SPIE 0277-786X, V. 10211

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Compressive Sensing VI: From Diverse Modalities to Big Data Analytics, edited by
Fauzia Ahmad, Proc. of SPIE Vol. 10211, 1021101 · © 2017 SPIE
CCC code: 0277-786X/17/$18 · doi: 10.1117/12.2280652

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Compressive Sensing VI: From Diverse Modalities to Big Data Analytics*, edited by Fauzia Ahmad, Proceedings of SPIE Vol. 10211 (SPIE, Bellingham, WA, 2017) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Authors*
vii *Conference Committee*

SESSION 1 DATA/SIGNAL PROCESSING WITH FAULTY MEASUREMENTS

10211 02 **Visual tracking with L1-Grassmann manifold modeling** [10211-1]

10211 03 **Characterizing L1-norm best-fit subspaces** [10211-2]

10211 04 **L1-norm principal-component analysis in L2-norm-reduced-rank data subspaces** [10211-3]

SESSION 2 CS FOR RADAR AND OPTICAL IMAGING

10211 05 **Sparse image reconstruction of targets in multilayered dielectric media using total variation minimization** [10211-4]

10211 06 **Sparse recovery for clutter identification in radar measurements** [10211-5]

10211 08 **Computational imaging through a fiber-optic bundle** [10211-7]

10211 09 **Compressive full waveform lidar** [10211-8]

SESSION 3 SPARSE REPRESENTATIONS AND SIGNAL PROCESSING I

10211 0A **Defect classification in sparsity-based structural health monitoring** [10211-21]

10211 0B **Adaptive sparse-binary waveform design for all-spectrum channelization** [10211-10]

10211 0C **Multiplication free neural network for cancer stem cell detection in H-and-E stained liver images** [10211-11]

10211 0D **Artifact detection in electrodermal activity using sparse recovery** [10211-12]

10211 0E **Superpixel sparse representation for target detection in hyperspectral imagery** [10211-13]

SESSION 4 SAMPLING PROCEDURES AND SPARSE RECOVERY ALGORITHMS

10211 0F **Performance analysis of sparsity-based interpolation for DOA estimation with non-uniform arrays** [10211-14]

10211 0G **A novel hybrid total variation minimization algorithm for compressed sensing** [10211-16]

SESSION 5 SPARSE REPRESENTATIONS AND SIGNAL PROCESSING II

10211 0I **Performance bounds for modal analysis using sparse linear arrays** [10211-18]

10211 0L **Real time network traffic monitoring for wireless local area networks based on compressed sensing** [10211-9]

10211 0M **Real-time network traffic classification technique for wireless local area networks based on compressed sensing** [10211-22]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Majid Rabbani, Rochester Institute of Technology (United States)

Symposium Co-chair

Robert Fiete, Harris Corporation (United States)

Conference Chair

Fauzia Ahmad, Temple University (United States)

Conference Program Committee

Moeness G. Amin, Villanova University (United States)
Gonzalo R. Arce, University of Delaware (United States)
Abdesselam Salim Bouzerdoum, University of Wollongong (Australia)
Michael J. DeWeert, BAE Systems (United States)
Matthew A. Herman, InView Technology Corporation (United States)
Eric L. Mokole, Consultant (United States)
Dimitris A. Pados, University at Buffalo (United States)
Piya Pal, University of Maryland, College Park (United States)
Athina P. Petropulu, Rutgers, The State University of New Jersey (United States)
Zhijun G. Qiao, The University of Texas-Pan American (United States)
Ervin Sejdic, University of Pittsburgh (United States)
Adrian Stern, Ben-Gurion University of the Negev (Israel)
Zhi (Gerry) Tian, George Mason University (United States)
Lei (Leslie) Ying, University at Buffalo (United States)
Yimin D. Zhang, Temple University (United States)

Session Chairs

1 Data/Signal Processing with Faulty Measurements
George Sklivanitis, University at Buffalo (United States)

2 CS for Radar and Optical Imaging
Michael DeWeert, BAE Systems (United States)

3 Sparse Representations and Signal Processing I
Ahmad Hoorfar, Villanova University (United States)

4 Sampling Procedures and Sparse Recovery Algorithms
Piya Pal, University of Maryland, College Park (United States)

5 Sparse Representations and Signal Processing II
Murat Akcakaya, University of Pittsburgh (United States)
