

PROCEEDINGS OF SPIE

Optical Materials in Defence Systems Technology V

James G. Grote
François Kajzar
Mikael Lindgren
Editors

15–16 September 2008
Cardiff, Wales, United Kingdom

Sponsored by
SPIE Europe

Cooperating Organisations
EMRSDTC—The Electro-Magnetic Remote Sensing Defence Technology Centre
(United Kingdom)
FOI—Swedish Defence Research Agency (Sweden)
Institute of Photonics (United Kingdom)
Luminex Corporation (USA)
Technium OptIC (United Kingdom)
WOF—Welsh Opto-electronics Forum (United Kingdom)

SPIE

Volume 7118

Proceedings of SPIE, 0277-786X, v. 7118

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Optical Materials in Defence Systems Technology V*, edited by James G. Grote, Francois Kajzar, Mikael Lindgren, Proceedings of SPIE Vol. 7118 (SPIE, Bellingham, WA, 2008) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/08/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v *Conference Committee*

SESSION 1 ORGANIC NONLINEAR OPTICAL MATERIALS I

- 7118 02 **Overview of innovative next generation materials for security and defense applications (Invited Paper)** [7118-01]
E. W. Taylor, L. R. Taylor, International Photonics Consultants (United States)
- 7118 03 **New organic nonlinear optical materials and their integration into silicon nanophotonic circuits and devices (Invited Paper)** [7118-02]
L. R. Dalton, Univ. of Washington (United States)

SESSION 2 ORGANIC NONLINEAR OPTICAL MATERIALS II

- 7118 09 **Calibration and rotational contribution in third-order NLO properties characterization** [7118-07]
I. Rau, Politehnica Univ. of Bucharest (Romania); F. Kajzar, J. Luc, B. Sahraoui, G. Boudebs, Univ. of Angers (France)

SESSION 3 ORGANIC BASED MATERIALS AND DEVICES I

- 7118 0C **OLET architectures for electrically-pumped organic lasers (Invited Paper)** [7118-10]
R. Zamboni, R. Capelli, S. Toffanin, M. Murgia, CNR-Istituto per lo Studio dei Materiali Nanostrutturati (Italy); M. Först, RWTH Aachen Universität Institut für Halbleitertechnik (Germany); M. Muccini, CNR-Istituto per lo Studio dei Materiali Nanostrutturati (Italy)

SESSION 4 ORGANIC BASED MATERIALS AND DEVICES II

- 7118 0F **Holographic security media prepared from photochromic fluorescent films (Invited Paper)** [7118-13]
J. Kim, E. Kim, Yonsei Univ. (South Korea)

SESSION 5 BIOTECHNOLOGY I

- 7118 0H **Material requirements for bio-inspired sensing systems (Invited Paper)** [7118-15]
P. Biggins, P. Lloyd, D. Salmond, Defence Science and Technology Lab. (United Kingdom); A. Kusterbeck, Naval Research Lab. (United States)

- 7118 0J **Optical properties of DNA-CTMA and PA-CTMA doped with (E)-2-(2-(4-(diethylamino)styryl)-4H-pyran-4-ylidene)malononitrile (DCM) (Invited Paper)** [7118-17]
D. H. Choi, J. E. Lee, Y.-W. Kwon, U. R. Lee, M. J. Cho, K. H. Kim, J.-I. Jin, Korea Univ. (Republic of Korea)

SESSION 6 BIOTECHNOLOGY II

- 7118 0L **Biopolymer-based gate dielectric for organic field effect transistors (Invited Paper)**
[7118-19]
K. R. Sarma, S. Dodd, C. Chanley, J. Roush, Honeywell International (United States);
N. S. Sariciftci, Johannes Kepler Univ. (Austria); R. R. Naik, J. G. Grote, Air Force Research
Lab. (United States)
- 7118 0M **Semiconductive properties of DNA-based materials** [7118-20]
F. Ouchen, S. Kim, Air Force Research Lab. (United States); G. Subramanyam, P. Yanney,
L. Dai, Univ. of Dayton (United States); R. Naik, J. Grote, Air Force Research Lab. (United
States)

Author Index

Conference Committee

Symposium Chair

David H. Titterton, Defence Science and Technology Laboratory
(United Kingdom)

Conference Chairs

James G. Grote, Air Force Research Laboratory (United States)
François Kajzar, Université d'Angers (France)
Mikael Lindgren, Norwegian University of Science and Technology
(Norway)

Program Committee

Chantal Andraud, École Normale Supérieure de Lyon (France)
Carrie M. Bartsch, General Dynamics Information Technology (United States)
Antoni Cz. Mitus, Wroclaw University of Technology (Poland)
Ileana Rau, Universitatea Politehnica Bucuresti (Romania)

Session Chairs

- 1 Organic Nonlinear Optical Materials I
James G. Grote, Air Force Research Laboratory (United States)
- 2 Organic Nonlinear Optical Materials II
Edward W. Taylor, International Photonics Consultants, Inc. (United States)
- 3 Organic Based Materials and Devices I
James G. Grote, Air Force Research Laboratory (United States)
- 4 Organic Based Materials and Devices II
Chantal Andraud, École Normale Supérieure de Lyon (France)
- 5 Biotechnology I
James G. Grote, Air Force Research Laboratory (United States)
- 6 Biotechnology II
Peter Biggins, Defence Science and Technology Laboratory (United Kingdom)
