

PROCEEDINGS OF SPIE

Nonimaging Optics: Efficient Design for Illumination and Solar Concentration XVI

**Roland Winston
Eli Yablonovitch**
Editors

**11–12 August 2019
San Diego, California, United States**

Sponsored and Published by
SPIE

Volume 11120

Proceedings of SPIE 0277-786X, V. 11120

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Nonimaging Optics: Efficient Design for Illumination and Solar Concentration XVI, edited by
Roland Winston, Eli Yablonovitch, Proc. of SPIE Vol. 11120, 1112001 · © 2019 SPIE
CCC code: 0277-786X/19/\$21 · doi: 10.1117/12.2552951

Proc. of SPIE Vol. 11120 1112001-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Nonimaging Optics: Efficient Design for Illumination and Solar Concentration XVI*, edited by Roland Winston, Eli Yablonovitch, Proceedings of SPIE Vol. 11120 (SPIE, Bellingham, WA, 2019) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	<i>Authors</i>
vii	<i>Conference Committee</i>

ADVANCED DEVELOPMENT

11120 02	Practical challenges towards 50% efficient thermophotovoltaic energy conversion (Invited Paper) [11120-1]
11120 03	Advances in Raman-based broadband optical refrigeration [11120-2]
11120 04	High concentration parabolic trough solar collector with novel secondary reflector in the vacuum receiver [11120-3]

CONCENTRATOR DESIGNS

11120 08	Implementation of a qualitative test for a Fresnel lens [11120-7]
----------	--

NUMERICAL AND FREEFORM METHODS

11120 0A	Numerical flowline concentrator design in 3D [11120-9]
11120 0B	Pushing the limits of beam-steering lens arrays [11120-10]
11120 0C	Advances in flowline simulations (Invited Paper) [11120-11]

SOLAR APPLICATIONS

11120 0D	Nonimaging solar collectors toward net-zero GHG emission (Invited Paper) [11120-12]
11120 0E	Aplanatic beam-down solar towers [11120-13]
11120 0G	Beyond the grid: the promise of solar concentration for non-electrical energy generation [11120-16]

NEW CONCEPTS

11120 OH **Simple analytical model for optical efficiency of an energy-harvesting projector** [11120-17]

ILLUMINATION

11120 OL **Improved solar illumination collection using holographic light management techniques**
[11120-21]

11120 OM **Evolutionary optimization algorithms for nonimaging optical design** [11120-22]

POSTER SESSION

11120 OP **Optical design for LED illumination in application of implantable retinal prostheses** [11120-25]

11120 OQ **Efficient and sustainable energy lighting solutions** [11120-26]

11120 OR **Developments for lighting applications by using prismatic film** [11120-27]

11120 OS **Design and testing of a Fresnel mirror for solar energy** [11120-28]

Authors

Numbers in the index correspond to the last two digits of the seven-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first five digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Program Track Chair

Peter Bermel, Purdue University (United States)

Conference Chairs

Roland Winston, University of California, Merced (United States)

Eli Yablonovitch, University of California, Berkeley (United States)

Conference Program Committee

Pablo Benítez, CeDInt-UPM (Spain) and Light Prescriptions Innovators LLC (United States)

William J. Cassarly, Synopsys, Inc. (United States)

Ángel García-Botella, Universidad Politécnica de Madrid (Spain)

Michael W. Haney, ARPA-E (United States)

Lun Jiang, University of California, Merced (United States)

Sarah R. Kurtz, University of California, Merced (United States)

Juan Carlos Miñano, CeDInt-UPM (Spain) and Light Prescriptions Innovators LLC (United States)

Narkis E. Shatz, SureFire, LLC (United States)

Session Chairs

- 1 Advanced Development
Roland Winston, University of California, Merced (United States)
- 2 Concentrator Designs
Lun Jiang, University of California, Merced (United States)
- 3 Numerical and Freeform Methods
Lun Jiang, University of California, Merced (United States)
- 4 Solar Applications
Zunaid Omair, University of California, Berkeley (United States)
- 5 New Concepts
Marco Stefancich, Dubai Electricity and Water Authority
(United Arab Emirates)
- 6 Illumination
Harry N. Apostoleris, Khalifa University of Science, Technology and
Research (United Arab Emirates)
