SPIE.

Event: Eighth International Conference on Remote Sensing and Geoinformation of the Environment (RSCy2020), 2020, Paphos, Cyprus

PROCEEDINGS OF SPIE

Eighth International Conference on Remote Sensing and Geoinformation of the Environment (RSCy2020)

Kyriacos Themistocleous
Giorgos Papadavid
Silas Michaelides
Vincent Ambrosia
Diofantos G. Hadjimitsis
Editors

16–18 March 2020
Paphos, Cyprus

Guest Editor
Eratosthenes Center of Excellence (Cyprus)

Organized by
Cyprus Remote Sensing Society (Cyprus)

In Cooperation with
ESA • (France) NASA (United States) • GEO (Switzerland) • German Aerospace Center (Germany)
Department of Electronic Communications of the Deputy Ministry for Research, Innovation and
Digital Policy (Cyprus) • Copernicus (Belgium) • ETEK (Cyprus) • Agricultural Research Institute
(Cyprus) • Department of Meteorology (Cyprus)

Supported by
Cyprus Forestry Department (Cyprus) • Cyprus Association of Civil Engineers (Cyprus) • ICOMOS
Cyprus (Cyprus) • Cyprus Tourism Organization (Cyprus) • Eratosthenes Center of Excellence
(Cyprus) • EXCELSIOR (Cyprus) • WeObserve (Greece) • Geo University (Greece) • Copernicus
Relays (Belgium) • Copernicus Academy (Belgium) • CopHub.AC (Belgium) • FPCUP (Germany)
MedRIN (United States) • Geosystems Hellas (Greece) • CyRIC (Cyprus)

Proceedings of SPIE 0277-786X, V. 11524

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Eighth International Conference on Remote Sensing and Geoinformation of the Environment (RSCy2020), edited by
K. Themistocleous, G. Papadavid, S. Michaelides, V. Ambrosia, D. G. Hadjimitsis Proc. of SPIE Vol. 11524,
1152401 · © 2020 SPIE · CCC code: 0277-786X/20/\$21 · doi: 10.1117/12.2575653

Proc. of SPIE Vol. 11524 1152401-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

AGRICULTURE

- 11524 02 Remote sensing of rice crop areas with UAVs data: Krasnodar region, Russia [11524-11]
- 11524 03 Monitoring maize (*Zea Mays* L.) phenology response to water deficit using Sentinel-2 multispectral data [11524-15]
- 11524 04 RE.CAP: reinforcing CAP through automated checks and self-assessment [11524-25]
- 11524 05 Remote sensing methods to estimate evapotranspiration incorporating MODIS derived data and applications over Greece: a review [11524-28]
- 11524 06 Spectrometric characteristics of soils of the subboreal zone of the eastern part of the Russian plain [11524-49]
- 11524 07 A Sentinel based agriculture monitoring scheme for the control of the CAP and food security [11524-78]

CULTURAL HERITAGE

- 11524 08 Cloud-to-cloud assessment of UAV and TLS 3D reconstructions of cultural heritage monuments: the case of Torre Zozzoli [11524-26]
- 11524 09 Study of fluvial processes impact on archaeological sites of the Volga Bulgaria period using remote sensing data [11524-48]
- 11524 0A The documentation of cultural heritage sites in Cyprus using integrated techniques: the case study of the Church of Agios Athanasios and Kyrillos [11524-73]
- 11524 0B Surveying and mapping of potential sources of pressure in Lefkada tourist areas for sustainable growth and jobs in the blue economy [11524-75]
- 11524 0C Remote sensing techniques for archaeology: a state of art analysis of SAR methods for land movement [11524-79]
- 11524 0D Stable: structural stability risk assessment [11524-92]

EARTH OBSERVATION

- 11524 0E Spectral measurements over test site Novi Iskar for creating a specific data base [11524-17]

11524 OF	Satellite imagery segmentation in lignite mine areas [11524-21]
11524 OG	Optical and SAR data for application of Interim Ecological Monitoring (IEM) on Studena Dam, Bulgaria [11524-27]
11524 OH	Easy to use empirical model for green vegetation reflection spectrum in VIS-NIR range [11524-36]
11524 OI	Digital soil mapping using Sentinel-2 imagery supported by ASTER thermal infrared bands [11524-37]
11524 OJ	Seasonal assessment of the dynamics of sea ice based on aerospace data on Livingston Island, New Shetland Islands in Antarctica and Longyearbyen in the Arctic [11524-38]
11524 OK	Convolutional neural networks for detecting challenging cases in cloud masking using Sentinel-2 imagery [11524-53]
11524 OL	Ship detection in Cyprus EEZ using Sentinel 1 data [11524-70]
11524 OM	Excelsior: Earth observation opportunities for excellence in the Emmena Region [11524-82]
11524 ON	An overview of electronic corner reflectors and their use in ground deformation monitoring applications [11524-84]
11524 OO	Preliminary assessment of offshore wind speed around Cyprus based on Sentinel-1 Level 2 OCN data [11524-89]

FORESTS

11524 OP	Spatiotemporal changes of forest line and canopy cover between 1945-2019 at selected Greek mountains [11524-16]
11524 OQ	Assessment of forest vegetation state through remote sensing in response to fire impact [11524-31]
11524 OR	GIS capabilities in monitoring of forest logging and assessment of burned areas based on Earth remote sensing data [11524-40]
11524 OS	Accuracy validation of digital elevation models for effective forest road management [11524-47]
11524 OT	Assessment of post-fire land degradation risk in Lebanon's 2019 fire affected areas using remote sensing and GIS [11524-54]
11524 OU	Rational evaluation of forest road network for sustainable development and protection in Greece [11524-56]
11524 OV	Environmental monitoring for conservation and integrated development of a multi-functional Green Infrastructure area [11524-57]

- 11524 OW Sustainable development and exploitation of a typical semi mountainous forest area in northern Greece [11524-58]
- 11524 OX Prioritizing forest road upgrade with the use of environmental impact assessment [11524-62]
- 11524 OY Preliminary spatial analysis for essential forest technical works using digital terrain models [11524-80]
- 11524 OZ Determination of culverts on low-volume roads using GIS and remote sensing [11524-86]

GIS

- 11524 10 Reducing non revenue water in Jordan using GIS [11524-29]
- 11524 11 The Web GIS monitoring and forecasting platforms in the Mediterranean and Black seas [11524-42]
- 11524 12 On-line data access interface for vegetation database at the Tuapkhath massif cliff [11524-43]
- 11524 13 The Black Sea oceanographic web GIS interface new developments [11524-44]
- 11524 14 Use of integration of GIS-based map algebra for land use change [11524-59]
- 11524 15 Timeless land use changes in semi mountainous adjacent area to Athens [11524-74]
- 11524 16 Planning and engagement arenas for renewable energy landscapes, Paros Island example [11524-83]

LAND COVER: URBAN

- 11524 17 Evaluation of urban atlas and street tree layer 2012 local component datasets for Bulgaria [11524-23]
- 11524 18 Architectural evaluation analysis by using GIS: case study Karavas [11524-45]
- 11524 19 Multi-temporal analysis of land cover changes using Landsat data through Google Earth Engine platform [11524-69]
- 11524 1A Mapping and assessment of urban heat island effects in the city of Sofia, Bulgaria through integrated application of remote sensing, unmanned aerial systems (UAS) and GIS [11524-93]

NATURAL HAZARDS

- 11524 1B **Studying seismic events via satellite interferometry** [11524-12]
- 11524 1C **Study of the contemporary state of the landslides in the northern Bulgarian Black Sea coast**
[11524-14]
- 11524 1D **Rockfalls systematic monitoring using UAVs: the case of Zachlorou village** [11524-30]
- 11524 1E **Mapping the Panagopoula landslide extent fifty years after the event** [11524-33]
- 11524 1F **Permanent infrastructures for continuous space-based monitoring of natural hazards** [11524-65]
- 11524 1G **Floods and sea storms: analysis of contemporaneity conditions in Calabria, Italy** [11524-68]
- 11524 1H **Pre-seismic anomalies from satellite data associated with some moderate Vrancea earthquakes** [11524-7]
- 11524 1I **Satellite SAR interferometry for monitoring dam deformations: the case of Evinos dam, central Greece** [11524-91]

REMOTE SENSING

- 11524 1J **The structure of wind waves and the contribution of its components in the alongshore sandy sediment transport** [11524-1]
- 11524 1K **Coherent formation and receiving of frequency hopping spread spectrum signals** [11524-19]
- 11524 1L **Using of remote sensing data to study transformation of the Solenoye Lake bay-bar** [11524-3]
- 11524 1M **Assess citizen science based land cover maps with remote sensing products: the Ground Truth 2.0 data quality tool** [11524-34]
- 11524 1N **Remote sensing as a driving tool for Citizen Science phenology monitoring campaigns**
[11524-39]
- 11524 1O **Remote sensing data fusion algorithm for super-resolution: multi-temporal case** [11524-4]
- 11524 1P **Detecting underground structures in vegetation indices: MSR, RDVI, OSAVI, IRG, time series using histograms** [11524-5]
- 11524 1Q **Land movement analysis from terrestrial laser scanner (LiDAR)** [11524-64]
- 11524 1R **Feature and information extraction for regions of Southeast Europe from Corona satellite images acquired in 1968** [11524-66]

- 11524 1S **Comparison of potential pollution levels in coastal areas of an Ionian island using hierarchical cluster analysis [11524-76]**
- 11524 1T **Monitoring of land surface radiative parameters in Bucharest city through thermal infrared remote sensing [11524-8]**
- 11524 1U **Evaluation of remotely sensed soil moisture products using crowdsourced measurements [11524-88]**
- 11524 1V **Assessing climate impacts on urban forest changes using time series satellite data [11524-9]**

UAV

- 11524 1W **Methodological features of aerial survey of coastal relief by UAV [11524-2]**
- 11524 1X **Use of Earth remote sensing data for the monitoring of the level of soil fertility [11524-41]**
- 11524 1Y **Verification of UAS photogrammetry approach for mass movement monitoring in alpine terrain: a case study in High Tatras, Slovakia [11524-61]**
- 11524 1Z **UAV regular mapping focusing on surface mine monitoring [11524-72]**

WATER BODIES: COASTAL

- 11524 20 **Dynamics of the coastline and topography of Verbenaya Kosa [11524-10]**
- 11524 21 **Digital bathymetric model of the Burgas Bay, Bulgarian Black Sea [11524-51]**
- 11524 22 **Digital terrain model of the Varna and Beloslav Lakes, North Bulgarian Black Sea Coast [11524-52]**
- 11524 23 **An initial overview of tidal and sea level variability in Cyprus [11524-60]**
- 11524 24 **An in situ optical dataset for working towards fiducial reference measurements based satellite ocean colour validation in the Eastern Mediterranean [11524-63]**
- 11524 25 **Shoreline changes of a pocket beach: a remote sensing application [11524-67]**
- 11524 26 **UAS-based mapping of depositional landforms along the North Bulgarian Black Sea coast in support of nature conservation [11524-87]**
- 11524 27 **Estimation of sea level height variability in Cyprus using Sentinel-3 satellite altimetry data [11524-90]**
