SPIE

Volume 11699

Proceedings of SPIE 0277-786X, V. 11699

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Quantum Computing, Communication, and Simulation, edited by Philip R. Hemmer,
Alan L. Migdall, Proc. of SPIE Vol. 11699, 1169901 · © 2021 SPIE
CCC code: 0277-786X/21/\$21 · doi: 10.1117/12.2596736

Proc. of SPIE Vol. 11699 1169901-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIEDigitalLibrary.org](https://spiedigitallibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Quantum Computing, Communication, and Simulation*, edited by Philip R. Hemmer, Alan L. Migdall, Proceedings of SPIE Vol. 11699 (SPIE, Bellingham, WA, 2021) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

QUANTUM AND QUANTUM-ENHANCED COMMUNICATION

- 11699 04 **Realizing quantum nodes in space for cost-effective, global quantum communication: in-orbit results and next steps (Invited Paper)** [11699-1]
- 11699 08 **Implementation of quantum key distribution and quantum clock synchronization via time bin encoding** [11699-5]
- 11699 09 **A new era of nonlinear optical computing and laser communication: performance advantages of integrating very low power photonic CMOS technology and high-power lasers** [11699-6]
- 11699 0B **Quantum machine learning for intrusion detection of distributed denial of service attacks: a comparative overview** [11699-47]

SOURCES AND STATE PRODUCTION FOR QUANTUM APPLICATIONS

- 11699 17 **Engineering and characterization of high-dimensional states** [11699-39]
- 11699 1B **Quantum advantage with light (Invited Paper)** [11699-43]
