2nd International Conference on Mechanical, Electronics, and Electrical and Automation Control (METMS 2022)

Ya Liu
Editor

7–9 January 2022
Guilin, China

Sponsored by
AEIC Academic Exchange Information Center (China)

Organized by
Sichuan University (China)

Published by
SPIE

Volume 12244
Part One of Two Parts
The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in 2nd International Conference on Mechanical, Electronics, and Electrical and Automation Control (METMS 2022), edited by Ya Liu, Proc. of SPIE 12244, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.
Contents

Part One

MECHANICAL MANUFACTURING TECHNOLOGY AND ROBOTICS APPLICATION

12244 02  The design of outpatient blood collection based on collaboration robots [12244-29]
12244 03  Design and verification of an installation robot for the variable stiffness fixture [12244-4]
12244 04  Design of underwater robot system for sea cucumber fishing [12244-3]
12244 05  Breast cancer detection chat robot based on convolutional neural network and term frequency-inverse document frequency [12244-6]
12244 06  Reactive ion etching and deep reactive ion etching processes [12244-5]
12244 07  Study on the surface flattening of borosilicate glass in chemical mechanical polishing [12244-186]
12244 08  Research on the space-time layout method of hot-recycled asphalt mixing plant [12244-189]
12244 09  Analysis of fracture cause of CAM assembly of operating mechanism of 110kV spring circuit breaker [12244-179]
12244 0A  Research on high viscosity emulsified asphalt technology for interlayer treatment of ultra-thin wearing layer [12244-208]
12244 0B  High vertical sand barrier laying vehicle [12244-72]
12244 0C  Optimization of formula SAE ergonomics based on CAITA [12244-42]
12244 0D  Numerical simulation and analysis of welding of drive axle housing and axle tube [12244-177]
12244 0E  Research and optimization of stock removal uniformity in planetary double-sided polishing process [12244-183]
12244 0F  The evaluation of chipping on single-crystal silicon carbide (SiC) dicing machining using sintered diamond blades [12244-65]
12244 0G  Simulation and experimental study on pressure transfer in sand mold digital extrusion process [12244-66]
Fatigue analysis of aircraft fuel thin-wall welded tube based on DFR method [12244-46]

Stamping process analysis and die design of automobile child seat bracket [12244-88]

Freezing-thawing test of ultra-high performance concrete for electric poles [12244-237]

Bionic peacock [12244-68]

The simulation and design of liquid composite moulding process for manufacturing casing structures of 3D woven composites [12244-153]

Research on the light weight of automobile seats based on optimization theory [12244-98]

A grass grid laying machine based on speed synthesis [12244-55]

Finite element analysis of radar antenna array under wind load [12244-171]

Wind load analysis of lightning protection tower based on finite element method [12244-159]

Axial modification of helical gear used for transmission case of internal combustion locomotive [12244-13]

Multifunctional integrated clearance robot for bulk-cargo grain carriers [12244-127]

Experimental study of the effect of different defrost modes on the temperature field of freezer [12244-15]

A study of quantitative safety analysis methods for civil aircraft master minimum equipment list proposals items [12244-235]

Surface quality of overhang features in hybrid manufacturing [12244-146]

Research on precise synchronous high voltage pulse gating system of framing camera [12244-188]

Research and application of MBSE method to lunar extra-vehicular activities mission [12244-212]

Development of simulation training system for marine oil purifier [12244-210]

42CrMo steel drawing process parameters optimization research [12244-205]

Overall design of the monitoring system for the mechanical elastic energy storage unit based on LabVIEW [12244-230]

A chipless RFID tag for humidity sensing [12244-192]
Key issues of Stirling engine and possible solutions [12244-144]

Simulation of ice crystal growth by phase field method [12244-123]

Study on helical drilling of silicon carbide ceramic by femtosecond pulsed laser [12244-164]

Fall prevention steering gear for high-altitude operation [12244-64]

Development of 66kV new type insulated operating rod [12244-52]

Practical research on the live emergency repair operation robot of 10kV power distribution line [12244-111]

Small reactor-gas turbine-biomass gas multi-energy complementary combined cycle technology and its economic research [12244-16]

Mutual inductance and load identification of dual excitation WPT [12244-9]

The development of assistive device for active lower limb rehabilitation training [12244-136]

Study on corrosion simulation and anti-corrosion of marine B10 seawater pipe system [12244-43]

Research on the optimum conditions for preparing C4 olefin by ethanol coupling [12244-221]

Structure design of additive and subtractive composite machining device based on FDM and milling [12244-28]

Numerical simulation and analysis of liquid metal flow characteristics for fusion related problems [12244-198]

Research on prediction of incomplete fusion of girth weld in automatic welding of pipeline [12244-228]

Theoretical investigation of energetics and mechanical properties of intermetallics in copper clad aluminum composite [12244-160]

Determining the melting temperature of three-dimensional atomic crystal using molecular dynamics simulation [12244-122]

Study of stress corrosion behaviors of B+F dual-phase X80 pipeline steel in simulated near neutral and acidic soil solution [12244-174]

Selection of deformation induction thermal correction coil scheme for sheet welding [12244-175]
12244 1J  Acoustic emission characteristics of epoxy resin casting when tensile failure occurs [12244-204]
12244 1K  Solid-liquid coexistence simulation of silicon melting point and reverse fitting correction potential function [12244-115]
12244 1L  Structure design of potential energy drive vehicle [12244-41]
12244 1M  Effect of different thermal properties on the hump defect formation of laser fuse additive [12244-173]
12244 1N  Modified dynamic viscosity formula for YSZ droplet solidification based on CEL method [12244-74]
12244 1O  Numerical study on the flow characteristics of array circle cooling header after rolling [12244-213]
12244 1P  Investigation on rolling contact fatigue of 55 medium-carbon steel [12244-75]
12244 1Q  Experimental study on carbonation resistance of ultra-high performance concrete for electric pole [12244-94]
12244 1R  Study on the effect of Nb doping on the phase transition temperature of VO₂ [12244-165]
12244 1S  The corrosion research of HR160 superalloy at 700°C molten KCl-MgCl₂ with air atmosphere [12244-129]
12244 1T  Effect of thickness on tensile properties and fracture mode of 316L stainless steel sheet [12244-163]
12244 1U  Cryogenic machining performance and surface quality of iron-based superalloy [12244-190]
12244 1V  Influence of magnetic fluid as hydraulic transmission medium on temperature rise of hydraulic circuit [12244-78]
12244 1W  Research on forced vibration parameters of elastic thin plate [12244-170]
12244 1X  Structural design and wind stability analysis of independent lightning rod [12244-158]
12244 1Y  Structural response of an TDOF system and earthquake response analysis [12244-155]
12244 1Z  Optical property pair influence of ceramic tile glaze wear resistance evaluation research on its practicability [12244-59]
12244 20  Techniques for the detection of decomposition products of sulfur hexafluoride mixed insulating gases (gas chromatography) [12244-80]
12244 21  Research and application of component classification on CPR1000 units based on AP-913 [12244-44]

12244 2J  Research and application of topological insulators [12244-150]
12244 2K  Study of 1-methyl-2-pyrrolidone recovery technology in lithium-ion battery production process [12244-2]
12244 2L  Current status and prospects of autonomous vehicles [12244-157]
12244 2M  Research on safety monitoring and early warning technology of intelligent auxiliary live working [12244-229]
12244 2N  Research on disaster recovery technology of cloud distribution power system based on distributed sensing and centralized decision [12244-167]

Part Two

12244 2O  Research on calculation strategy of wind power and photovoltaic power consumption capacity of city and county electrical power system [12244-23]
12244 2P  Research and application of system monitoring technology in nuclear power plants [12244-50]
12244 2Q  Review on the development and application of virtual power plant under the background of dual carbon [12244-125]
12244 2R  Research on Jiangsu offshore wind power transmission mode considering life cycle cost [12244-138]
12244 2S  Demand response based zonal load forecasting for electric vehicle charging stations [12244-108]
12244 2T  Research on the operation strategy of the large-scale energy storage power station in the power market environment [12244-10]
12244 2U  Feasibility analysis of various methods to extend the battery longevity of electric vehicles [12244-126]
12244 2V  The experience of German power system under the background of dual carbon target [12244-11]
12244 2W  Analysis and research on carbon electricity map based on power topology [12244-54]
12244 2X  Research on evaluation index system of new power system [12244-57]
12244 2Y  Intelligent management technology that can make distribution transformer use clean electric heating in the form of over-capacity [12244-96]
12244 2Z  Practical fixed-time stability analysis of discrete-time network systems via sliding mode control [12244-85]
12244 30  Application analysis of large scale electrochemical energy storage in Northeast auxiliary service market [12244-27]
12244 31  Research on realizing low energy consumption using domino circuit [12244-200]
12244 32  A self-switching energy management circuit based on electric-field energy harvester for 220V power lines [12244-181]
12244 33  Automatic longitudinal landing control of FanWing [12244-148]
12244 34  An assessment method of insulation condition based on depolarization current method and probabilistic neural network (PNN) [12244-202]
12244 35  Analysis and prospect for automated container terminal handling technology system [12244-203]
12244 36  A brief research on four different solar thermal power generation systems based on Stirling engine [12244-143]
12244 37  Short-term power load combination prediction by using KNN and BiLSTM [12244-194]
12244 38  Design and simulation verification of height control of aircraft based on experimental system [12244-196]
12244 39  Automatic early warning method of distribution network operation state for emergency repair [12244-234]
12244 3A  Analysis and optimization of energy-saving transformation effect of thermal power unit based on index weight algorithm [12244-197]
12244 3B  Study on protection and test of flexible direct current converter station [12244-107]
12244 3C  Study on attitude monitoring system of high-voltage live operation [12244-112]
12244 3D  Study on relay protection method of doubly-fed wind farm considering transient characteristics of wind power [12244-81]

DEVELOPMENT OF ELECTRICAL EQUIPMENT AND ANALYSIS OF FAULT DIAGNOSIS

12244 3E  Multiphysics simulation of solid oxide fuel cell stack [12244-1]
12244 3F  Analysis on the fire accident of the turf substation caused by the transfer of potential in the substation [12244-137]
12244 3G  Range extender for electric vehicles and the future trends [12244-231]
12244 3H  Health degree evaluation of transmission towers based on Game Theory [12244-79]
12244 3I  Optimization method of nuclear power steam turbine unit based on stochastic forest algorithm [12244-238]
Experimental research on the pressure distribution on the cable surface based on pneumatic measures [12244-67]

Research on new energy-saving and environment-friendly material battery management system [12244-97]

Current status and prospects of damper design and application [12244-154]

First and second generation of iron-based redox flow battery [12244-103]

Analysis on the third generation photovoltaics-multi-junction solar cell [12244-22]

Analysis of power drop of pole 2 in Gaopo station caused by the event of pole 2 exit in Luquan station [12244-37]

Design and application of intelligent on-line monitoring device for contaminated discharge status of insulators based on voiceprint recognition [12244-106]

Dynamic research and analysis of battery charge and discharge in new energy electric vehicles [12244-17]

Fault diagnosis of chiller based on whale optimization algorithm to optimize long and short-term memory network [12244-82]

Overview of electric vehicle battery management system algorithms [12244-109]

Application and design of lithium iron phosphate battery in DC system of substation [12244-104]

Analysis of fast charging and battery swap station based on battery safety [12244-132]

The characteristics of heat exchanger and dependence on flow direction [12244-84]

Study on different substations based on equipment operation safety risk [12244-31]

Study on fire suppression of power lithium-ion battery by water mist with composite additives [12244-61]

Adaptation of GB/T34590 on battery management system (BMS) for new energy vehicle [12244-19]

An interactive fault detection method for cyber-physical system based on system-theoretic process analysis [12244-92]

Safety analysis of Airstair system based on fault tree analysis [12244-201]

Low-frequency oscillation modal analysis of virtual synchronous generator grid-connected system [12244-180]
12244 42  A smart structure design framework for large scale complex electronic equipment [12244-195]
12244 43  Modeling and performance prediction of 6RT-flex58T diesel engine propulsion plant [12244-147]
12244 44  Structural principle and troubleshooting analysis of automotive air conditioner [12244-211]
12244 45  Modeling and simulation of diesel main propulsion device for 10000 TEU container ship [12244-145]
12244 46  Defect detection of transformer lead bushing based on deep learning [12244-185]
12244 47  Research on defect diagnosis of power communication network based on edge computing [12244-142]
12244 48  A parallel-coupled microstrip bandpass filter by mixed fractals [12244-182]
12244 49  Research on function analysis and architecture design method of satellite electrical power system based on SysML [12244-191]
12244 4A  Discussion the laptop computer cooling system [12244-184]
12244 4B  Series arc fault detection of complex branch based on CNN_LSTM model [12244-172]
12244 4C  Analysis of a 35kV vacuum circuit breaker accident caused by protection misoperation [12244-34]
12244 4D  Analysis of the 220kV main transformer gap discharging accident [12244-35]
12244 4E  Research and analysis on a short circuit fault caused by removal of foreign matters in transformer caused by earthquake [12244-168]
12244 4F  Research on arc fault identification method based on improved backpropagation neural network [12244-101]
12244 4G  Research on low-temperature floor radiant heating system with solar-air source heat pump in Chongqing area [12244-117]

SMART GRID AND ALGORITHMIC MODEL IDENTIFICATION AND PREDICTION

12244 4H  The digital transformation evaluation system of power grid enterprises under the guidance of high quality is constructed [12244-105]
12244 4I  Numerical simulation on mixing process of reconstituted tobacco by discrete element algorithm [12244-95]
12244 4J  Research on the arctangent function mechanical model of magneto-rheological damper [12244-124]
Dynamic study of the Ising model: equilibrium time and temperature [12244-116]

Research on the influence of user side energy storage on power grid line construction demand [12244-116]

Reasonable mode and price analysis of a small and medium-sized pumped storage power station [12244-62]

Risk assessment method for lane-changing vehicles based on surrogate safety measure [12244-8]

Research on operation control strategy and mode of distributed battery energy storage supporting power grid [12244-24]

Optimization of regional integrated energy system planning considering economy and environmental protection [12244-14]

Study on the impact of offshore wind power plants via VSC-HVDC transmission to Jiangsu power grid on the security and stability [12244-58]

Data-and physic-driven user power clustering method [12244-77]

Economic evaluation of offshore wind farm operation and maintenance considering opportunity maintenance [12244-225]

Research on the combined power forecasting of regional wind and photovoltaic power based on statistical upscaling [12244-20]

Demand side resources participating in the construction of power market value system [12244-119]

Decision-making approach for substation converged data center construction based on cost assessment [12244-26]

Optimization method for siting and sizing distributed photovoltaic generation site considering load complementarity characteristics [12244-21]

Aquifer identification based on time domain spectral induced polarization sounding [12244-71]

Low-carbon constraint-oriented peak shaving optimization method for nuclear power integration into power system [12244-83]

“Three rates in one” matching model for lean management of the whole project [12244-30]

Reliability evaluation method of guided missile system based on multi-source information fusion [12244-134]

Photovoltaic maximum power point tracking based on BP neural network [12244-222]

Research on load density equilibrium recovery method of distribution network in typhoon disaster weather [12244-232]
