Front Matter: Volume 12639
Third International Conference on Mechanical Design and Simulation (MDS 2023)

Mohamed Arezki Mellal
Yunqing Rao
Editors

3–5 March 2023
Xi’an, China

Organized by
Atria Institute of Technology (India)

Sponsored
Academic Exchange Information Centre (China)

Published by
SPIE

Volume 12639
Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12639

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.
## Contents

**Part One**

**MACHINERY MANUFACTURING AND EQUIPMENT DESIGN TECHNOLOGY**

12639 02  A radar reconnaissance simulation design method [12639-126]

12639 03  Study on the influence of design parameters on the dynamic instability of bearingless rotor helicopter [12639-149]

12639 04  Lightweight design of a high mobility vehicle-based radar [12639-48]

12639 05  Research on innovative design of mechanical products based on TRIZ theory [12639-34]

12639 06  Design of air compressor control system for fuel cell [12639-161]

12639 07  Design of pneumatic control system for automatic bottle capping device [12639-39]

12639 08  Simulation study on design and ventilation effect of downgrading squat silos distributor [12639-43]

12639 09  Design and simulation analysis of stereoscopic hybrid garage rack and gear handling device [12639-25]

12639 0A  Advanced filter rod loading and unloading technology and equipment [12639-113]

12639 0B  Design of progressive die for automotive seat adjuster bracket [12639-103]

12639 0C  Development of mechanical design and manufacturing based on KNN algorithm [12639-129]

12639 0D  Computer aided industrial design application of tower crane cab based on ergonomics [12639-38]

12639 0E  Modal analysis of binding device and multi-target optimization design [12639-44]

12639 0F  Design of measurement and control system for positive pressure combustion flame furnace [12639-13]

12639 0G  Structural design of key components of acoustic releaser based on finite element simulation [12639-111]
12639 OH  Design of fully automatic measuring device for solid materials of automatic gravimetric filling instrument [12639-101]

12639 OI  Aeroelastic optimization design of SpaRibs wing structure [12639-93]

12639 OJ  Structural design of electronic equipment with frameless construction and blind mating connection [12639-107]

12639 OK  Design and simulation of robot gripper for gripping special workpieces [12639-125]

12639 OL  Research on power spinning process of 2A12 aluminum alloy thin-walled parts [12639-138]

12639 OM  Heavy duty diesel engine main rotor and mandrel coaxial quick alignment device design [12639-42]

12639 ON  Structural optimization design and analysis of a 2-m space-based mirror [12639-158]

12639 OO  Dynamic design of multistage substructure for structures with repetitive characteristics [12639-54]

12639 OP  Prediction of the adjustable range of damping force in the design of magnetorheological damper [12639-56]

12639 OQ  Design and application of vehicle type flat roadway device in underground coal mine [12639-140]

12639 OR  Design and implementation of multi-source heterogeneous data production management platform for textile machinery workshop [12639-122]

12639 OS  Design and research of a three-dimensional negative Poisson's ratio structure [12639-50]

12639 OT  Design and cogging torque optimization of yokeless and segmented armature disc motor [12639-3]

12639 OU  Design of energy storage device and simulation of fluid heat transfer for energy storage aircraft ground air conditioning unit [12639-2]

12639 OV  Structural design and optimization of the mobile strike robot based on the ROBOCON competition [12639-68]

12639 OW  Research on the application of computer three-dimensional modeling technology in wardrobe design [12639-159]

12639OX  Design of torque/angle composite measuring sensor for rotary joint [12639-41]

12639 OY  Structural design and analysis of multi-material 3D printer based on screw extrusion principle [12639-73]

12639 OZ  Design of sapling planting robot [12639-89]

Tip modification and stress analysis of cylindrical gear based on thermoelastic coupling [12639-33]

Study on ignition and combustion of plasma jet in aeroengine combustor [12639-118]

Real-time simulation and research of motor controller based on FPGA [12639-19]

Equal-peak optimization of pendulum tuned mass damper using time-delay feedback control [12639-52]

Simulation research on a new method of phase-regulated single-phase flow measurement for low production horizontal well [12639-137]

Fluid-solid coupling analysis of on-load tap-changer arc explosion based on CEL method [12639-132]

Research on lattice model of inclined small box girder bridge based on frequency test method [12639-7]

Research on heave compensation predictive control algorithm of offshore crane winch [12639-78]

LH2 turbopump rotor dynamic characteristics under the nonlinear fluid force of labyrinth seal [12639-106]

Research on cable peeling control method based on Kalman filter and multiple linear regression [12639-164]

Research on magnetic fluid guaranteed combined sealing of high-volume fan [12639-127]

Fatigue life prediction of flap safety pins for civil aircraft [12639-62]

Civil airplane initial buffeting flight test data analysis and boundary expansion [12639-55]

Thermal simulation separating phase transformation temperature control device used in vacuum thermal test waveguide [12639-60]

The effect of impeller size on mixing efficiency in KR method [12639-136]

Effect of chip breaker land width of trapezoidal chip breaking groove on tool vibration caused by chip control [12639-10]

Research on reliability analysis of aero-engine guide vane adjustment mechanism of variable geometry turbine considering strength degradation [12639-142]

Study on the dynamic response of TiNi alloy fixed beam under impact loading [12639-155]

Study on the influence of preload on the three-point bending limit load of CFPR countersunk bolt connections [12639-69]
Research on trim and energy efficiency optimization of ship in actual navigation [12639-91]

Simulation of motion planning control of Ackerman intelligent vehicle based on ROS [12639-75]

Study on drag reduction and thermal protection effects in spike-transpiration cooling configurations [12639-6]

Research of hydrodynamic characteristics of complex structure underwater robot [12639-128]

Research and experiment of double-layer composite metal plate sound absorption structure [12639-156]

Trajectory tracking control of SCARA parallel robot based on fuzzy adaptive iterative learning algorithm [12639-152]

Finite element analysis of the telescopic boom with single cylinder and pinning system for Gantry crane [12639-104]

Rolling bearing fault diagnosis based on improved convolutional neural networks with attention mechanism under strong noise [12639-160]

Hull strength analysis for wind turbine units [12639-157]

Research on coupling hydrodynamics and flow field characteristics of POD thruster and hull [12639-96]

Matching and simulation of power system of dual-motor four-wheel drive baja racing car based on off-road conditions [12639-5]

INTELLIGENT EQUIPMENT STRUCTURE AND SYSTEM OPTIMIZATION

A study on simulation assessment of x-type mechanical equipment based on RMS [12639-139]

Simulation and optimization of wave adaptive unmanned boat fore and aft rods based on Workbench [12639-11]

Review on applications of piezoelectric materials for aero-engine blade vibration suppression [12639-9]

Research on simulation model of high precision ear pressure comfort of car door closing based on user experience [12639-148]

Simulation analysis of temperature field characteristics of fast nucleic acid analyzer based on finite element method [12639-29]

Modeling and simulation of intelligent manipulator for marine research [12639-74]
12639 2Z Simulation of flow-field above airfoil, under transonic speeds, based on small disturbance equation [12639-108]

12639 30 Intelligent bionic jellyfish robot for shallow water quality monitoring [12639-105]

12639 31 Motion simulation of bionic snake-like robot based on Adams [12639-28]

12639 32 Optimization and analysis of connecting rods for pike crab bait cutting machines based on ANSYS Workbench [12639-57]

12639 33 Shear resistance and arming characteristics of fuze shear sheets using theoretical analysis and numerical simulation [12639-100]

12639 34 Research on characteristics of tilting pad bearing based on FLUENT-UDF simulation method [12639-145]

12639 35 Gradient aluminum foam gasket in the penetration fuze [12639-133]

12639 36 Damage effects of the copper space debris on Whipple bumper shields [12639-115]

12639 37 Strength reliability analysis of axial-symmetric vectoring exhaust nozzle mechanism considering strength degradation [12639-151]

12639 38 Research of strength degradation analysis and strength reliability of aero-engine’s rear variable area bypass injector [12639-150]

12639 39 Comparative study on tunnel boring machine and drilling-blasting methods for tunnels based on FLAC3D [12639-8]

12639 3A Modeling of Active Vibration Reduction System (AVRS) based on vibration source propagation path [12639-121]

12639 3B Research on transverse vibration characteristics of beam-strut composite system based on analytical method [12639-22]

12639 3C Vibration characteristic analysis of rotor rub-impact fault under air-gap mixed eccentricity of motor [12639-14]

12639 3D Novel random SVPWM technique based on Tiny Mersenne Twister PRNG to reduce PWM harmonic [12639-81]

12639 3E Research on transfer scheme of vehicle model based on welding module production of MES system [12639-85]

12639 3F Study on influence of diversion disc on environment of a launch canister based on CFD [12639-97]

12639 3G Application of phase-locked loop in permanent magnet synchronous power generation system of internal combustion locomotive [12639-18]

12639 3H Simulation analysis of in-orbit thermal deformation of low-earth orbit spacecraft [12639-131]
12639 3I  Three-dimensional configuration model of safety position of falling support for maintenance of substation equipment [12639-79]

12639 3J  Simulation research on the reappearance technology of manipulator trajectory based on Marker ball [12639-20]

12639 3K  Fluid characteristics analysis and structure optimization in diaphragm compressor [12639-154]

12639 3L  Static frequency converters modelling improvement and harmonic analysis for pumped storage power plants [12639-135]

12639 3M  Comparative study of static strength and fatigue strength tests and simulation analysis of an exit subway bogie frame [12639-47]

12639 3N  Construction technology of the digital twinning model for the erect-fold electromechanical-hydraulic system of radar based on co-simulation [12639-119]
Conference Committee

Conference Chair

Yunqing Rao, Huazhong University of Science and Technology (China)

Technical Program Committee Chair

Eckart H. Meiburg, University of California (United States)

Publication Chair

Mohamed Arezki Mellal, M’Hamed Bougara University (Algeria)

Organizing Committee

Bing Li, Northwestern Polytechnical University (China)
Yang Xiao, Southwest Petroleum University (China)
Jüri Majak, Tallinn University of Technology (Estonia)
Yasuto Hijikata, Saitama University (Japan)
Ajay Kumar Agarwal, JB Knowledge Park (India)
Yue Zhang, Georgia Southern University (United States)
Jie Jia, Chang’an University (China)
Rusdi Nur, Politeknik Negeri Ujung Pandang (Malaysia)
Arun Balodi, Atria Institute of Technology (India)

Technical Program Committee

Murat Tolga Ozkan, Gazi University (Turkey)
Prashanth Konda Gokuldoss, Tallinn University of Technology (India)
Alexander Lukin, Western-Caucasus Research Center (Russia)
Junxi Bi, Inner Mongol University of Technology (China)
Minoru Sasaki, Gifu University (Japan)
Yanan Sun, Sichuan University (China)
Katarina Monkova, Technical University of Kosice (Slovakia)
P. K. Dash, Nitte Meenakshi Institute of Technology (India)
Enwei Chen, Hefei University of Technology (China)
Valerian Croitorescu, Politehnica University of Bucharest (Romania)
Sivakumar Dhar Malingam, Universiti Teknikal Malaysia Melaka (Malaysia)
