LARGE MONOLITHIC SPACE OPTICAL SYSTEMS I

12677 0D  Approaches to lowering the cost of large space telescopes (Invited Paper) [12677-28]
12677 0E  Compact three mirror anastigmat space telescope design using 6.5m monolithic primary mirror [12677-29]
12677 0F  Approaches to developing tolerance and error budget for active three mirror anastigmat space telescopes [12677-30]

LARGE MONOLITHIC SPACE OPTICAL SYSTEMS II

12677 0G  Focus diverse phase retrieval testbed development of continuous wavefront sensing for space telescope applications [12677-31]
12677 0H  Analysis of active optics correction for a large honeycomb mirror [12677-32]
12677 0I  Integrated modeling of wavefront sensing and control for space telescopes utilizing active and adaptive optics [12677-33]
12677 0J  Radio telescope manufacturing with adaptive aluminum thermoforming and fringe projection metrology [12677-10]

OPTO-MECHANICAL ENGINEERING

12677 0K  Dos and don’ts in mounting ZERODUR (Invited Paper) [12677-35]
12677 0L  Understanding the role of additive manufacturing in the development of astronomical hardware [12677-36]
12677 0M  Thermo-elastic analysis of various lateral flexure bonding applications [12677-37]

POSTER SESSION

12677 0N  Flat surface measurement using laser trackers and SMRs on motorized stages [12677-40]
12677 0O  Tolerance analysis of off-axis freeform three-mirror KASI-deep rolling imaging fast telescope [12677-42]
12677 0P  Low-to-mid spatial frequency wavefront error control for off-axis freeform three-mirror KASI-deep rolling imaging fast telescope [12677-43]
Atmospheric dispersion corrector for a multi-object spectroscopic mode of HROS-TMT [12677-44]

Preliminary mechanical design of GrainCams payload for the CLPS lunar rover [12677-48]

ZernikeNet: a deep learning-based approach for accurate Zernike coefficients calculation in aspheric optical components [12677-50]

Dynamic tool influence function on SiC mirror surfaces for space optical telescopes using orthogonal velocity tool [12677-51]

DIGITAL POSTER SESSION

Application of the polarization-holographic imaging Stokes spectropolarimeter in astronomy [12677-45]
Conference Committee

Conference Chairs

Tony B. Hull, The University of New Mexico (United States)
Daewook Kim, Wyant College of Optical Sciences (United States)
Pascal Hallibert, European Space Research and Technology Center (Netherlands)

Program Track Chair

Oswald H. Siegmund, Space Sciences Laboratory (United States)

Conference Program Committee

Jonathan W. Arenberg, Northrop Grumman Aerospace Systems (United States)
Romain Auribault, Thales Alenia Space (France)
Seunghyuk Chang, Center for Integrated Smart Sensors (Korea, Republic of)
Alain J. Corso, CNR-IFN Padova (Italy)
Laura E. Coyle, Ball Aerospace (United States)
Matthew East, L3Harris Technologies, Inc. (United States)
Bill A. Goodman, Goodman Technologies, LLC (United States)
James P. Hamilton, Photonic Cleaning Technologies (United States)
John M. Hill, Large Binocular Telescope Observatory (United States)
Frank Stefan Höller, Scantinel Photonics (Germany)
Pengda Hong, Lehigh University (United States)
Joseph M. Howard, NASA Goddard Space Flight Center (United States)
Fanny Keller, European Space Research and Technology Center (Netherlands)
Stephen E. Kendrick, Kendrick Aerospace Consulting LLC (United States)
Janina Krieg, SCHOTT AG (Germany)
Nisrine Louh, Thales Alenia Space (France)
Steven A. Macenka, Jet Propulsion Laboratory (United States)
Luca Maresi, European Space Research and Technology Center (Netherlands)
Ted Mooney, L3Harris Technologies, Inc. (United States)
Kashmira Nakhoda, RayKi Consulting (United States)
Maria Guglielmina Pelizzo, Università degli Studi di Padova (Italy)
Narasimha S. Prasad, NASA Langley Research Center (United States)
Eric Ruch, Safran Reosc (France)
Stuart B. Shaklan, Jet Propulsion Laboratory (United States)
Greg A. Smith, Wyant College of Optical Sciences (United States)
David Douglas Walker, University of Huddersfield (United Kingdom)
Thomas Westerhoff, SCHOTT AG (Germany)
Grant Williams, MMT Observatory (United States)
