PROCEEDINGS OF SPIE

Fourth International Conference on Signal Processing and Machine Learning (CONF-SPML 2024)

Sana Ullah Jan
Editor

15 January 2024
Chicago, Illinois, United States

Organized by
Illinois Institute of Technology (United States)
Melbourne Institute of Technology (Australia)
University of Portsmouth (United Kingdom)
Al Ain University (United Arab Emirates)
China Agricultural University Smart Sensing Group (China)

Published by
SPIE

Volume 13077

Proceedings of SPIE 0277-786X, V. 13077

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Fourth International Conference on Signal Processing and Machine Learning (CONF-SPML 2024),
edited by Sana Ullah Jan, Proc. of SPIE Vol. 13077, 1307701
© 2024 SPIE · 0277-786X · doi: 10.1117/12.3027482

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Fourth International Conference on Signal Processing and Machine Learning (CONF-SPML 2024)*, edited by Sana Ullah Jan, Proc. of SPIE 13077, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

FOURTH INTERNATIONAL CONFERENCE ON SIGNAL PROCESSING AND MACHINE LEARNING (CONF-SPML 2024)

13077 02 **Inflated 3D ConvNet for detection of sign language** [13077-1]

13077 03 **Deep-learning-based brain segmentation and tumor radiogenomic classification** [13077-2]

13077 04 **Challenges and opportunities for enhanced channel capacity in near-field wireless communication** [13077-4]

13077 05 **Exploring blockchain-integrated voting system technologies** [13077-5]

13077 06 **The application of large-scale MIMO detection algorithm in 5G and beyond 5G** [13077-6]

13077 07 **Sentiment analysis of travel reviews based on deep learning and transformer** [13077-7]

13077 08 **Bridging efficacy and efficiency: innovations in Shapley value estimation for model-agnostic data valuation in machine learning** [13077-8]

13077 09 **The investigation of robustness differences for variously-sized models in adversarial attacks and defense** [13077-9]

13077 0A **Phototropic bionics: realization of intelligent machine detection and obstacle avoidance** [13077-10]

13077 0B **A study of model predictive control and reinforcement learning control system** [13077-11]

13077 0C **An integrated CycleGAN-Diffusion approach for realistic image generation** [13077-12]

13077 0D **Advancements and challenges in speech emotion recognition: a comprehensive review** [13077-13]

13077 0E **Revolutionising ADHD diagnosis: deep learning in 3D medical imaging** [13077-14]

13077 0F **Improving robustness in emotion recognition via adversarial training** [13077-15]

13077 0G **Real image improvement study based on pivotal tuning inversion** [13077-16]

13077 0H **A review of 3D printing slicing algorithms** [13077-17]

13077 0I **Analysis of two variants of U-net for pulmonary nodule segmentation: attention U-net and dense-attention U-net** [13077-18]

13077 0J **A systematic review and analysis of A-star pathfinding algorithms and its variations** [13077-19]

13077 0K **Universal adversarial triggers for attacking against API-sequence-based malware detector** [13077-20]

13077 0L **Revolutionizing interaction: the role of artificial intelligent conversation agents in human-computer interaction** [13077-21]

13077 0M **Detecting student depression on Weibo based on various multimodal fusion methods** [13077-22]

13077 0N **Opinion distribution: spatial sentiment analysis of online restaurant reviews through BERT model and GIS** [13077-23]

13077 0O **Using D* algorithm to optimize the path selection of UAV in different environments** [13077-24]

13077 0P **Research on signal noise reduction method of quad-rotor UAV** [13077-25]

13077 0Q **Trajectory tracking control of quadrotor using MPC and Gaussian process regression compensation** [13077-26]

13077 0R **Landing gear design for emergency take-off and landing of drones on unconventional landings** [13077-27]

13077 0S **UAV obstacle avoidance with PID control based on improved sparrow search algorithm** [13077-28]

13077 0T **Research on machine-vision-based unmanned aerial vehicle landing technology** [13077-29]

Conference Committee

Conference Chairs

Marwan Omar, Illinois Institute of Technology (United States)
Stavros Shiaeles, University of Portsmouth (United Kingdom)
Ammar Alazab, Melbourne Institute of Technology (Australia)

Organizing Committee

Sana Ullah Jan, Edinburgh Napier University (United Kingdom)
Rudrendu Kumar Paul, Boston University (United States)
Handong Li, Northumbria University (United Kingdom)
Turgay Batbat, Erciyes University (Turkey)
Abdullahi Arabo, University of the West of England (United Kingdom)

Program Committee

Ali Darejeh, UNSW Sydney (Australia)
Yazeed Ghadi, Al Ain University (United Arab Emirates)
Festus Adedoyin, Bournemouth University (United Kingdom)
Mustafa Istanbullu, Çukurova University (Turkey)
Xinqing Xiao, China Agricultural University (China)

Session Chairs

1. NLP for Cybersecurity
   Marwan Omar, Illinois Institute of Technology (United States)

2. Harnessing the Power of Machine Learning to Advance Cybersecurity
   Ammar Alazab, Melbourne Institute of Technology (Australia)

3. Intrusion Detection using Machine Learning
   Stavros Shiaeles, University of Portsmouth (United Kingdom)

4. Mastering the Depths of Deep Learning: A Comprehensive Workshop
   Yazeed Ghadi, Al Ain University (United Arab Emirates)

5. Machine Learning Based Smart Sensing and Applications
   Xinqing Xiao, China Agricultural University (China)
