SPIE

Volume 6760

Proceedings of SPIE, 0277-786X, v. 6760

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Infrared, Mid-IR, and Terahertz Technologies for Health and the Environment II*, edited by Alexey A. Belyanin, Rebekah A. Drezek, Claire Gmachl, Proceedings of SPIE Vol. 6760 (SPIE, Bellingham, WA, 2007) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/07/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIEDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

v Conference Committee

SESSION 1 SENSING WITH SINGLE-MODE AND TUNABLE QUANTUM CASCADE LASERS

- 6760 03 **Measurement of broad absorption features using a tunable external cavity quantum cascade laser** [6760-02]
M. C. Phillips, T. L. Myers, M. D. Wojcik, B. D. Cannon, M. S. Taubman, D. C. Scott, Pacific Northwest National Lab. (USA)
- 6760 05 **Assessment of a QCL laser approach for the simultaneous measurement of ambient ammonia and ozone** [6760-04]
V. Vladutescu, City College, CUNY (USA) and Graduate Ctr., CUNY (USA); B. Gross, F. Moshary, S. Ahmed, City College, CUNY (USA)

SESSION 2 NOVEL SENSORS AND DEVICES

- 6760 07 **Intercomparison of calibration techniques for 1064nm NIR elastic lidar** [6760-06]
S. Chaw, City College, CUNY (USA) and Graduate Ctr., CUNY (USA); Y. Wu, B. Gross, F. Moshary, S. Ahmed, City College, CUNY (USA)
- 6760 09 **Vertically integrated As₂S₃ waveguides on lithium niobate waveguides** [6760-08]
M. Solmaz, R. Atkins, J. Gardner, C. K. Madsen, Texas A&M Univ. (USA)
- 6760 0A **Doping tunable enhanced extraordinary optical transmission gratings** [6760-09]
D. Wasserman, Princeton Univ. (USA); J. Cederberg, E. A. Shaner, Sandia National Labs. (USA)
- 6760 0B **Electronically tunable plasmonic grating-gate terahertz detectors** [6760-10]
E. A. Shaner, A. D. Grine, S. K. Lyo, J. L. Reno, M. C. Wanke, Sandia National Labs. (USA); S. J. Allen, Univ. of California, Santa Barbara (USA)

Abstract Only: Tunable mid-IR external cavity quantum cascade laser based spectroscopic sensor for acetone detection [6760-01]
Y. A. Bakhirkin, A. A. Kosterev, Rice Univ. (USA); T. Day, M. B. Pushkarsky, Daylight Solutions (USA); F. K. Tittel, Rice Univ. (USA)

Abstract Only: QEPAS based detection of broadband absorbers using a widely tunable external cavity quantum cascade laser at 8.6 micron [6760-03]
R. Lewicki, G. Wysocki, A. A. Kosterev, F. K. Tittel, Rice Univ. (USA)

Abstract Only: Distributed feedback quantum cascade laser using metallic surface grating for spectroscopy detection in the 4 to 8 μ m wavelength range [6760-05]
M. Garcia, M. Carras, X. Marcadet, S. Bansropun, Thales Research and Technology (France)

Abstract Only: Development of broadband atmospheric absorption sensor based on quartz-enhanced photoacoustic spectroscopy [6760-07]
A. A. Kosterev, F. K. Tittel, Rice Univ. (USA); A. J. Henderson, C. Brooks, Aculight Corp. (USA)

Author Index

Conference Committee

Symposium Chairs

Tuan Vo-Dinh, Duke University (USA)

Robert A. Lieberman, Intelligent Optical Systems, Inc. (USA)

Conference Chairs

Alexey A. Belyanin, Texas A&M University (USA)

Rebekah A. Drezek, Rice University (USA)

Claire Gmachl, Princeton University (USA)

Program Committee

Mark G. Allen, Physical Sciences Inc. (USA)

Hui Chun Liu, National Research Council Canada (Canada)

Tanya L. Myers, Pacific Northwest National Laboratory (USA)

Joshua Pfefer, U.S. Food and Drug Administration (USA)

Gottfried Strasser, Technische Universität Wien (Austria)

Urs Utzinger, University of Arizona (USA)

Session Chairs

- 1 Sensing with Single-Mode and Tunable Quantum Cascade Lasers
Anatoliy A. Kosterev, Rice University (USA)
- 2 Novel Sensors and Devices
Yury A. Bakhirkin, Rice University (USA)
