PROCEEDINGS OF SPIE

Earth Observing Missions and Sensors: Development, Implementation, and Characterization

**Xiaoxiong Xiong
Choen Kim
Haruhisa Shimoda**
Editors

**13–14 October 2010
Incheon, Korea, Republic of**

Sponsored by
SPIE

Cosponsored by
Korea Ocean Research & Development Institute (Korea, Republic of)
Korea Ocean Satellite Center (Korea, Republic of)
Ministry of Land, Transport and Maritime Affairs (Korea, Republic of)
Incheon Metropolitan City (Korea, Republic of)
Incheon Tourism Organization (Korea, Republic of)
National Aeronautics and Space Administration (United States)
National Institute of Information and Communications Technology (Japan)
Science Technology Corporation (United States)
Indian Space Research Organization (India)
Indian National Centre for Ocean Information Services (India)

Volume 7862

Proceedings of SPIE, 0277-786X, v. 7862

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii	<i>Symposium Committees</i>
ix	<i>Conference Committee</i>

SESSION 1 EXISTING AND NEW MISSIONS AND SENSORS I

- 7862 03 **GMES Sentinel 3: mission overview and aspects of the Calval Plan for its optical payload (Invited Paper)** [7862-02]
J. Nieke, European Space Research and Technology Ctr. (Netherlands); P. Goryl, ESA Ctr. for Earth Observation (Italy); C. Donlon, B. Berruti, European Space Research and Technology Ctr. (Netherlands)
- 7862 05 **GOSAT higher level product status more than 1.5 years after the launch and planned improvement** [7862-04]
H. Watanabe, A. Yuki, K. Hayashi, F. Kawazoe, N. Kikuchi, F. Takahashi, T. Matsunaga, T. Yokota, National Institute for Environmental Studies (Japan)
- 7862 06 **3000 pixel linear InGaAs sensor for the Proba-V satellite** [7862-05]
J. Bentell, J. Vermeiren, P. Verbeke, A. de Kerckhove, L. Rodriguez, T. Colin, B. Grietens, Xenics NV (Belgium)

SESSION 2 EXISTING AND NEW MISSIONS AND SENSORS II

- 7862 07 **Aspects of the EarthCARE satellite and its payload** [7862-06]
R. V. Gelsthorpe, A. Heliere, A. Lefebvre, J. Lemanczyk, E. Mateu, A. Perez-Albinana, K. Wallace, European Space Research and Technology Ctr. (Netherlands)
- 7862 09 **Operation concept of the second-generation global imager (SGLI)** [7862-08]
K. Tanaka, Y. Okamura, Japan Aerospace Exploration Agency (Japan); T. Amano, M. Hiramatsu, K. Shiratama, NEC TOSHIBA Space Systems, Ltd. (Japan)
- 7862 0B **Philosophy and key features of 'Hodoyoshi' concept for optical remote sensing using 50kg class satellites** [7862-10]
A. Enokuchi, N. Takeyama, Genesia Corp. (Japan); Y. Nakamura, AXELSPACE Corp. (Japan); Y. Nojiri, Next-generation Space Systems Technology Research Association (Japan); N. Miyamura, A. Iwasaki, S. Nakasuka, The Univ. of Tokyo (Japan)

SESSION 3 ENABLING TECHNOLOGIES AND NEW SENSOR TEST CONCEPT

- 7862 0C **Comparison of two methodologies for calibrating satellite instruments in the visible and near infrared** [7862-11]
R. A. Barnes, Science Applications International Corp. (United States); S. W. Brown, K. R. Lykke, National Institute of Standards and Technology (United States); B. Guenther, National Oceanic and Atmospheric Administration (United States); X. Xiong, J. J. Butler, NASA Goddard Space Flight Ctr. (United States)

- 7862 OD **Initial studies of the bidirectional reflectance distribution function of carbon nanotube structures for stray light control applications** [7862-12]
J. J. Butler, NASA Goddard Space Flight Ctr. (United States); G. T. Georgiev, Sigma Space Corp. (United States); J. L. Tveekrem, M. Quijada, S. Getty, J. G. Hagopian, NASA Goddard Space Flight Ctr. (United States)
- 7862 OF **Non-equal spacing CMOS sensor impact on response between even and odd pixels** [7862-14]
C. Liu, N.-Y. Chen, National Space Organization (Taiwan)

SESSION 4 POST-LAUNCH CALIBRATION AND VALIDATION I

- 7862 OH **Simulation of the long term radiometric responses of the Terra MODIS and EO-1 ALI using Hyperion spectral responses over Railroad Valley Playa in Nevada (RVPN)** [7862-16]
T. Choi, Sigma Space Corp. (United States); X. Xiong, NASA Goddard Space Flight Ctr. (United States); A. Angal, Science Systems and Applications, Inc. (United States); G. Chander, SGT, Inc. (United States)
- 7862 OI **The characterization of deep convective cloud albedo as a calibration target using MODIS reflectances** [7862-17]
D. R. Doelling, NASA Langley Research Ctr. (United States); G. Hong, D. Morstad, R. Bhatt, A. Gopalan, Science Systems and Applications, Inc. (United States); X. Xiong, NASA Goddard Space Flight Ctr. (United States)
- 7862 OJ **Spectral characterization of the Dunhuang calibration/validation site using hyperspectral measurements** [7862-18]
C. Cao, National Oceanic and Aeronautic Administration (United States); L. Ma, Academy of Opto-Electronics (China); S. Uprety, DPSGS (United States); C. Li, L. Tang, Academy of Opto-Electronics (China)
- 7862 OK **Monitoring the long term stability of the IRS-P6 AWiFS sensor using the Sonoran and RVPN sites** [7862-19]
G. Chander, A. Sampath, SGT, Inc. (United States); A. Angal, Science Systems and Applications, Inc. (United States); T. Choi, Sigma Space Corp. (United States); X. Xiong, NASA Goddard Space Flight Ctr. (United States)

SESSION 5 POST-LAUNCH CALIBRATION AND VALIDATION II

- 7862 OM **Results and lessons from a decade of Terra MODIS on-orbit spectral characterization** [7862-21]
X. Xiong, NASA Goddard Space Flight Ctr. (United States); T. Choi, N. Che, Z. Wang, J. Dodd, Y. Xie, Sigma Space Corp. (United States); W. Barnes, Univ. of Maryland, Baltimore County (United States)

- 7862 ON **Characterization of the clouds and the Earth's radiant energy system (CERES) sensors on Terra and Aqua spacecraft** [7862-22]
S. Thomas, Science Systems and Applications, Inc. (United States); K. J. Priestley, NASA Langley Research Ctr. (United States); N. M. Smith, Science Systems and Applications, Inc. (United States); N. G. Loeb, NASA Langley Research Ctr. (United States); P. C. Hess, M. Shankar, D. R. Walikainen, Z. P. Szewczyk, R. S. Wilson, D. L. Cooper, Science Systems and Applications, Inc. (United States)

SESSION 6 IMPROVED DATA ANALYSIS METHODOLOGIES AND RESULTS

- 7862 OO **Cropcam UAV images for land use/land cover over Penang Island, Malaysia, using neural network approach** [7862-23]
F. M. Hassan, H. S. Lim, M. Z. MatJafri, Univ. Sains Malaysia (Malaysia)
- 7862 OQ **Extraction of power lines from aerial images based on Hough transform** [7862-25]
Q. Wu, J. An, Dalian Maritime Univ. (China); R. Yang, Ocean Univ. of China (China)
- 7862 OS **ASTER cloud coverage reassessment using MODIS cloud mask products** [7862-27]
H. Tonooka, Ibaraki Univ. (Japan); K. Omagari, Earth Remote Sensing Data Analysis Ctr. (Japan); H. Yamamoto, National Institute of Advanced Industrial Science and Technology (Japan); T. Tachikawa, M. Fujita, Earth Remote Sensing Data Analysis Ctr. (Japan); Z. Paitaer, Ibaraki Univ. (Japan)

POSTER SESSION

- 7862 OV **Precise spaceborne SAR image formation technique based on the analysis of critical errors using the spaceborne SAR simulator** [7862-31]
S. H. Shim, Y. M. Ro, KAIST (Korea, Republic of)
- 7862 OW **On-orbit assessment of the polarization response of COCTS onboard HY-1B satellite** [7862-32]
X. He, D. Pan, Q. Zhu, Z. Hao, G. Fang, The Second Institute of Oceanography, State Oceanic Administration (China)
- 7862 OX **Imagemall: a prototype of service-oriented multisensor remote sensed image processing and distribution system** [7862-33]
L. Lu, J. Wang, Institute of Remote Sensing Applications (China)

Author Index

Symposium Committees

Symposium General Chairs

Upendra N. Singh, NASA Langley Research Center (United States)
Yu-Hwan Ahn, Korea Ocean Research & Development Institute (Korea, Republic of)

Symposium General Cochairs

Toshio Iguchi, National Institute of Information and Communications Technology (Japan)
A. S. Kiran Kumar, Space Applications Center (India)
Delu Pan, State Oceanic Administration (China)

Symposium Honorary Chairs

Michael Freilich, NASA Headquarters (United States)
Mary Ellen Kicza, National Oceanic and Atmospheric Administration (United States)
Takashi Moriyama, Japan Aerospace Exploration Agency (Japan)
Ranganath R. Navalgund, Space Applications Center (India)
Shailesh R. Nayak, Ministry of Earth Sciences (India)

Symposium Technical Program Chairs

Robert J. Frouin, Scripps Institution of Oceanography, University of California, San Diego (United States)
Vaddadi Jayaraman, Indian Space Research Organisation (India)
Kohei Mizutani, National Institute of Information and Communications Technology (Japan)

Symposium Steering Committee

Upendra N. Singh, *Chair*, NASA Langley Research Center (United States)
George J. Komar, *Cochair*, NASA Goddard Space Flight Center (United States)
Kazuhiro Asai, Tohoku Institute of Technology (Japan)
Robert J. Frouin, Scripps Institution of Oceanography, University of California, San Diego (United States)
Jack A. Kaye, NASA Headquarters (United States)
A. S. Kiran Kumar, Space Applications Center (India)
Delu Pan, State Oceanic Administration (China)
Jinxue Wang, Raytheon Company (United States)

Symposium International Organizing Committee

Yu-Hwan Ahn, Korea Ocean Research & Development Institute (Korea, Republic of)

Jinyu Cheng, Chinese Society of Oceanography (China)

Adarsh Deepak, Science and Technology Corporation (United States)

Ramesh K. Kakar, NASA Headquarters (United States)

Teruyuki Nakajima, The University of Tokyo (Japan)

Haruhisa Shimoda, Japan Aerospace Exploration Agency (Japan)

Lelia B. Vann, NASA Langley Research Center (United States)

Conference Committee

Conference Chairs

Xiaoxiong Xiong, NASA Goddard Space Flight Center (United States)
Choen Kim, Kookmin University (Korea, Republic of)
Haruhisa Shimoda, Japan Aerospace Exploration Agency (Japan)

Conference Cochairs

Changyong Cao, National Environmental Satellite, Data, and
Information Service (United States)
Xingfa Gu, Institute of Remote Sensing Applications (China)
A. S. Kiran Kumar, Space Applications Center (India)

Program Committee

James J. Butler, NASA Goddard Space Flight Center (United States)
Gyanesh Chander, U.S. Geological Survey (United States)
Raju U. Datla, National Institute of Standards and Technology (United
States)
Bruce W. Guenther, National Oceanic and Atmospheric Administration
(United States)
Jens Nieke, European Space Research and Technology Center
(Netherlands)
Kazuhiro Tanaka, Japan Aerospace Exploration Agency (Japan)

Session Chairs

- 1 Existing and New Missions and Sensors I
Haruhisa Shimoda, Japan Aerospace Exploration Agency (Japan)
Choen Kim, Kookmin University (Korea, Republic of)
- 2 Existing and New Missions and Sensors II
James J. Butler, NASA Goddard Space Flight Center (United States)
Haruhisa Shimoda, Japan Aerospace Exploration Agency (Japan)
- 3 Enabling Technologies and New Sensor Test Concept
Jens Nieke, European Space Research and Technology Center
(Netherlands)
- 4 Post-launch Calibration and Validation I
Robert A. Barnes, NASA Goddard Space Flight Center (United States)
Changyong Cao, National Environmental Satellite, Data, and
Information Service (United States)

- 5 Post-launch Calibration and Validation II
Kazuhiro Tanaka, Japan Aerospace Exploration Agency (Japan)
- 6 Improved Data Analysis Methodologies and Results
Xiaoxiong Xiong, NASA Goddard Space Flight Center (United States)
